

Antique Flooring

Antique flooring is milled out of reclaimed barnwood and beams for that timeless quality floor you've been looking for. Our unique antique flooring will have checking, nail holes, worm holes, weather cracks, and other character marks.

Old Surface:

Only the back side is milled, keeping the original circular sawn surface that is full of character.

Distressed:

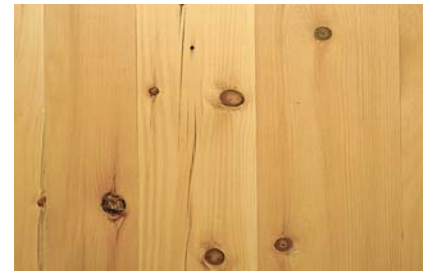

While the backside is milled, the front side is only lightly planed giving it a rustic look.

Remilled:

Both the backside and face are milled for a newer look, giving it all the charm of a reclaimed floor.

Antique Heart Pine

Crown Grade:

This grade has 100% dense grained hardwood, with few to no nail holes and very infrequent small knots, no larger than 1" in diameter. Giving an elegant and refined look.

Select Grade:

This grade has 90-100% dense grain hardwood, with very infrequent nail holes, tight knots no larger than 1-1/2" in diameter and occasional hairline checks. Popular for any style.

Character Grade:

This grade has 70-100% heart content, with varying grain patterns, scattering of knots, nail holes and hairline checks. For a more casual country feel.

Since 1977, Superior Hardwoods and Millwork, Inc. has been providing its customers with interesting and dramatic flooring. Our variety and quality are outstanding in the industry. Whether you choose a traditional hardwood or unique reclaimed wood, our flooring gives character and warmth to any room.

Bringing a little bit of the *past* into the *future*!
